

28 – 31 Jan 2020
MOSCOW RUSSIA
 Recycling in the framework of interplastica

Moderator: Ruslan Gubaidullin, Head of Clean Country Association

Tuesday 28 January	
11.00	WELCOME SPEECH
11.00-11.30	Speaker and topic – TBC REO (Russian environmental operator)
11.30-12.00	Topic – TBC Dmitry Gerasimenko, Development Director, EcoLine Group
12.00-12.30	Activities of the German-Russian Chamber of commerce in the sphere of ecology and waste management. German-tech digital platform. Andrey Sizykh, Government Relations Manager, AHK
12.30-13.00	Facilities Engineering and Construction Complex solutions for waste management. Russian-German technological partnership as the optimal approach to resolve ecological problems Tatyana Macidovsky, Head of Perspective Development Department; Kirill Andryushin, Head of the Department for Waste Management, Intertechelectro
13.00-13.30	The whole is more than the sum of its parts. KEYCYCLE: turnkey solutions for value-added recycling Michal Prochazhka, Managing Director, KEYCYCLE
13.30-14.00	Producer's extended responsibility Liubov Melanevskaya, Executive Director, RusPec
14.00-14.30	Waste utilization market development stimulation by means of industry association through the PER mechanism Sergey Podoynikov, Executive Director, EcoTyresUnion

28 – 31 Jan 2020
MOSCOW RUSSIA
Recycling in the framework of interplastica

14.30-16.30	<p>Plastic's coming back to the economic cycle: consumer goods industry as an example Irina Antyushina, Head of Sustainable Business Development and Corporate Relations, Unilever</p> <p>Topic – TBC Olga Ivanova, Chief Ecological Engineer for the Moscow Region, Magnit</p> <p>Leroy Merlin's strategy for efficient waste management Olga Mikonenko, Project Manager for Effective Waste Management, Leroy Merlin</p> <p>Topic – TBC Yana Cineciu, Sustainable Development Director, X5 Retail Group</p> <p>VkusVill's environmental and recycling projects Alexander Tsygankov, Environmental projects supervisor, VkusVill</p> <p>Sustainable Development Strategy: Scope for the Good Irina Korshunova, Senior Director for Sustainable Development, McDonalds Russia</p>
16.30-17.00	<p>Old PVC windows recycling: European experience and Russian perspectives Sergey Yelnikov, Head of Communications, VEKA RUS</p>

28 – 31 Jan 2020
MOSCOW RUSSIA
Recycling in the framework of interplastica

Wednesday 29 January

11.00	WELCOME SPEECH
11.00-11.30	Recycling of plastic containers and packaging waste in view of sustainable development goals Konstantin Rzayev, Chairman of the Board of Directors, EcoTechnologies
11.30-12.00	EdelweissCompounding: an effective approach to high quality plastic waste compounds manufacturing Anton Vagis, Head of Extrusion Technology Department, KraussMaffei Representative Office
12.00-12.30	Production of ABS, PS, PP recycled granulate as part of innovative complex of electronic waste complete recycling Oksana Korsunova, Commercial Director, PC Ecoplast
12.30-13.00	Circular economy: the key issue for the industry's future Harry Reichert, Consultant for Plastics and Rubber Processing Machinery Department, VDMA (German Mechanical Engineering Industry Association)
13.00-13.30	Automated sorting and secondary polymer recycling process optimization Gleb Trofimov, Regional Sales Manager for CIS, Tomra
13.30-14.00	Speaker and topic – TBC WEIMA
14.00-14.30	Speaker and topic – TBC Lindner

28 – 31 Jan 2020
MOSCOW RUSSIA
 Recycling in the framework of interplastica

14.30-15.00	<p>We are moving the circular economy forward. Efficient recycling technologies by EREMA Fritz Wimmer, Sales Director for Asia, Oceania, CIS & UK, EREMA</p>
15.00-15.30	<p>Ways to increase plastic recycling share. Highly efficient recycling technologies for flexible and rigid food packaging Klemenž Kitzberger, Business Development Manager, EREMA</p>
15.30-16.00	<p>Speaker and topic – TBC Aleko Group</p>
16.00-16.30	<p>Speaker and topic – TBC Polystar</p>

Thursday 30 January

11.30	<p>WELCOME SPEECH</p>
11.30-12.00	<p>Creating solutions for recycling Albert Sadykov, market development specialist; Elena Kudryavtseva, technologist, CIS, Mobil Oil Lubricants</p>
12.00-12.30	<p>SIBUR business model transformation under the influence of sustainable development agenda Maxim Remchukov, Sustainable Development Director, SIBUR</p>
12.30-13.00	<p>ENGELskinment technology: New opportunity for recycled material application Michael Kornbichler, Regional Sales Manager, Engel</p>
13.00-13.30	<p>Safe choice, Bottle-to-Bottle EREMA's recycling solutions. Up to 100% recycled PETE in new bottles Roland Koch, Sales Manager, EREMA</p>

28 – 31 Jan 2020
MOSCOW RUSSIA
Recycling in the framework of interplastica

13.30-14.00	Bottle to Bottle technology: Recycling industry challenges Dmitry Katashov, Head of Sales Department, Plarus
14.00-14.30	Fibre manufacture from recycled materials Invited: Vostokhimvolokno
14.30-15.00	Plastic products manufacture from secondary raw materials Invited: I-Plast
15.00-15.30	Multifunctional polymer composites based on recycled packaging materials Igor Skopintsev, Professor, Moscow Polytechnic University
15.30-16.00	Bioplastics: the alternative to traditional plastics? Eduard Zamyslov, Technical Director, EcoSafe
16.00-16.30	Development perspectives for biodegradable materials market in the Russian Federation Anna Potapova, Head of Market Development Department, Scientific Production Company R&P POLYPLASTIC
16.30-17.00	Biodegradable polymers: application perspectives today and tomorrow Vsevolod Abramov, Vice President, Association of Plastic Processors of the Russian Federation
17.00-17.30	Solution for biofuel energy sources construction Engineer One- Company
